SMC-3™ Smart Motor Controller

- Soft Start
- Soft Stop
- Selectable Kick Start
- Current Limit Start
- **Available from 3-85 amps. Inquire at your local branch for availability**

Built in Features:

- Built-in by-pass.
- Electronic overload protection with adjustable trip class.
- Configurable auxiliary contacts.
- Fault diagnostics.

SMC™ Flex

- Soft Start / Soft Stop
- Current Limit Start
- Full Voltage Start
- Kick Start
- Dual Ramp
- Pump Control
- Smart Motor Braking
- **Available from 5-480 amps. Inquire at your local branch for availability**

Built in Features:

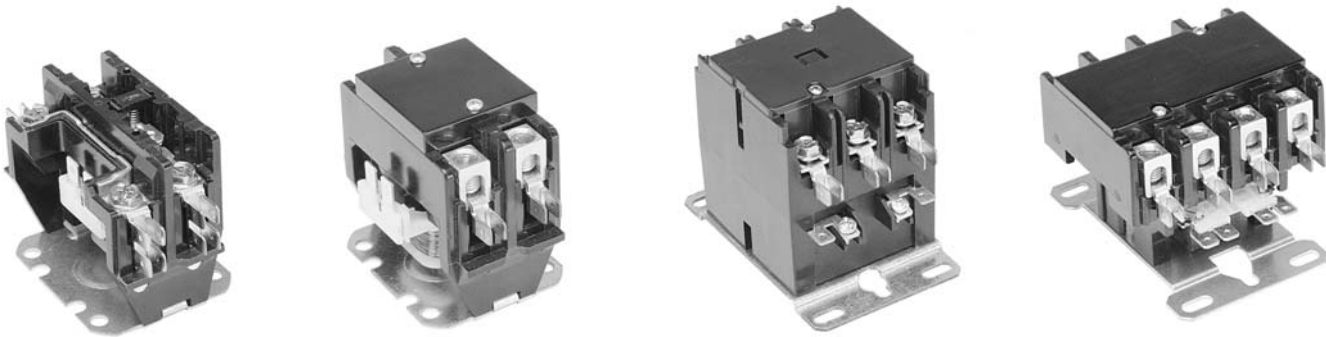

- Built-in by-pass.
- Electronic overload protection with adjustable trip class.
- Configurable auxiliary contacts.
- Full metering.
- LCD display.
- Extensive fault diagnostics

Note:

- The final selection of the manual starter depends on the actual motor full load current and service factor. See main catalogue for details.
- The 140M Motor Protectors provide Class 10 overload protection as well as current limiting short-circuit protection for individual motor loads. They are UL/CSA listed Manual Starters.
- Manual Self-Protected (Type E) combination starters - eliminating the requirement for additional short-circuit protection.
- Approval for motor disconnecting with the use of a lockable handle (140M-C-KN, or 140M-C-KRY).

Features

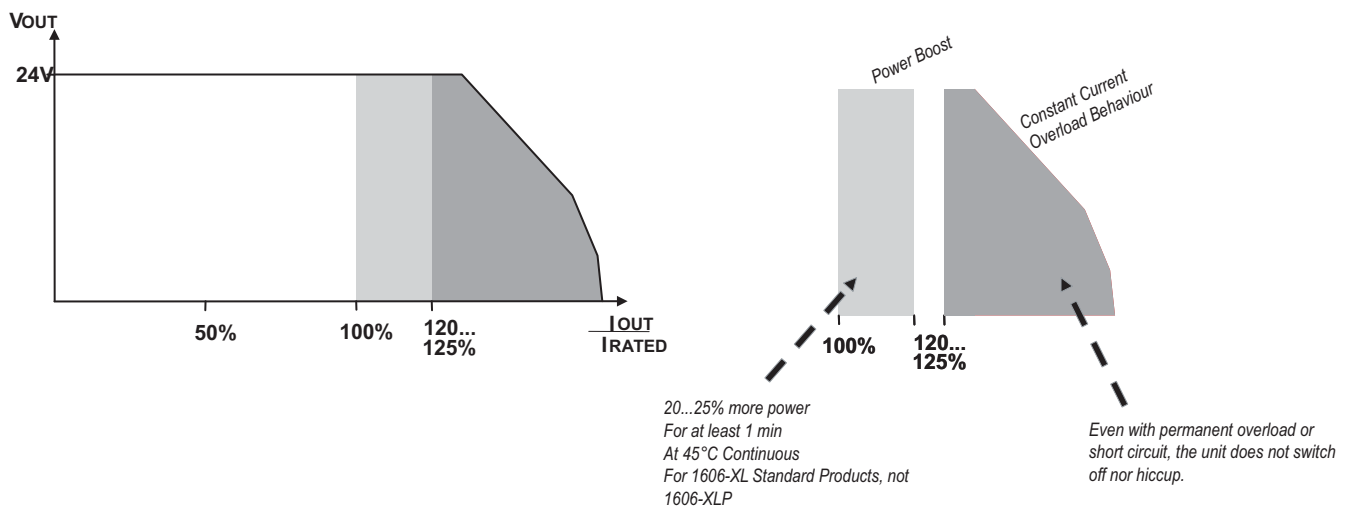

- Quick mounting and connecting, innovative DIN-Rail mount, Smallest in class
- Low inrush current limiting
- PFC choke
- Wide range input; auto select input
- Superior overload design (continuous current, no hiccup)
See figure below
- Selectable operating mode (single/parallel)
